Condensation and Evaporation

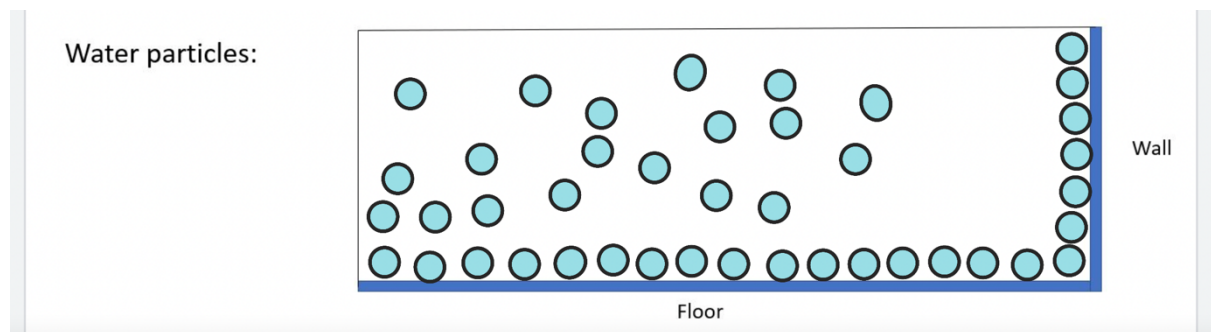

DragGame Activity 1:

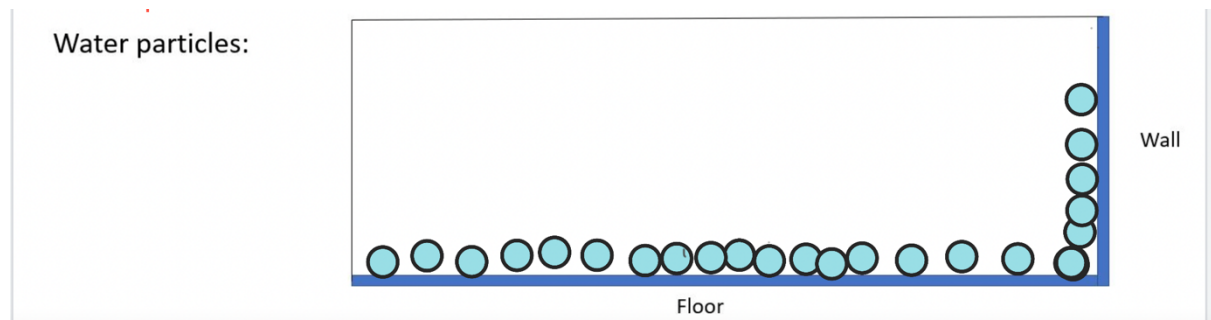

Can you try constructing a model for explaining the situation: You may drag water particles (circles) into space.

1. Why do you arrange the water particles in this way?
2. Where does the water come from?

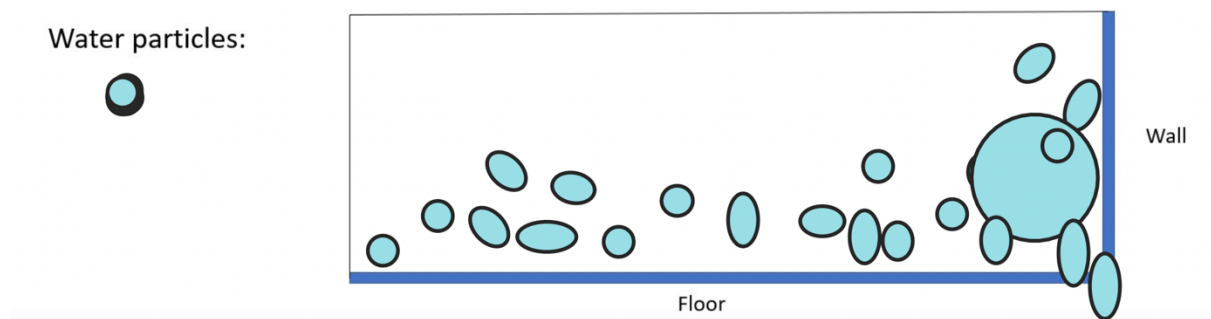

Sample 1

Sample 2

Sample 3

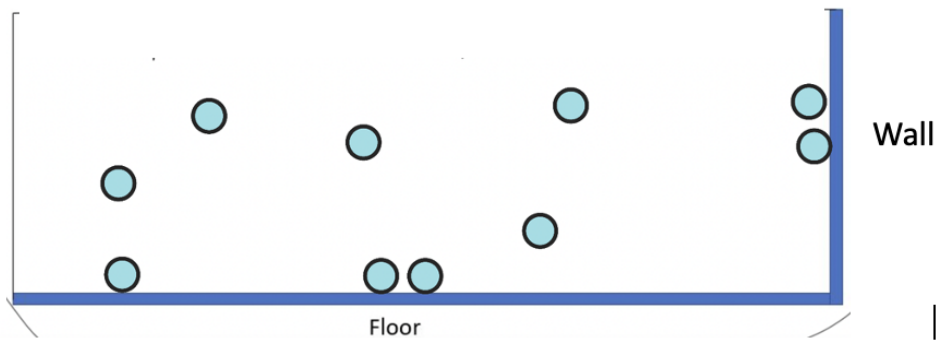

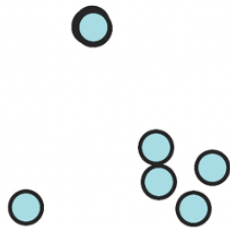

DragGame Activity 2:

In the afternoon, the water is found evaporated and there is no water on the floor. Can you try constructing a model for explaining the situation:
You may drag water particles (circles) into space.

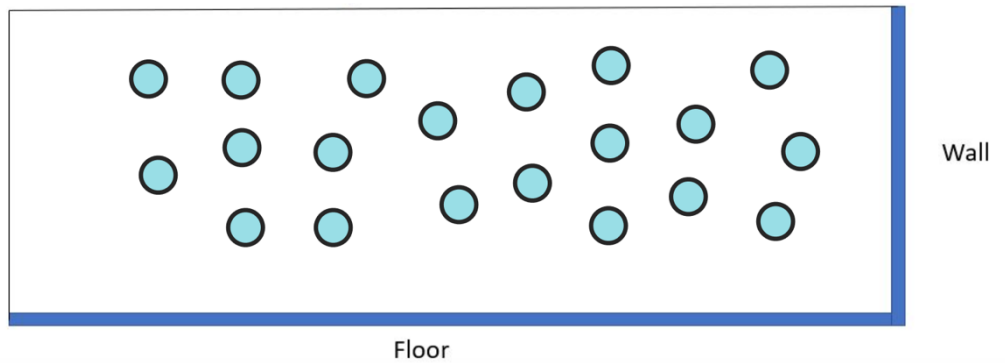

Sample 1

Water particles:

Sample 2

Water particles:

Sample 3
